

QUANTA: A SPECK of YOUR SOUL

20th July 2014, 11:30am @ Urban Solace, Bangalore, India

EVENT HIGHLIGHTS

A cloudy sombre sky, sparse drizzle and chill air, a gathering of 35 odd people, Aashwasan and its facilitator! These were the ingredients of the unassuming Sunday morning at Urban solace on the 20th of July. The Quantum Physicist, , entrepreneur, teacher, Aashwasan practitioner and Chief advisor of Aashwasan, and the facilitator for the morning, Ravi Ramamurthy started with some basic concepts of Quantum Physics. He took people through an experiential understanding of these concepts. Gradually he led them to the realm of possibilities, and connected them to the experience of their life. People started sharing experiences that they had long forgotten, and some mused on recent memories. Experiences that were shared connected everyone to the moment, space and to a deep sense of their own reality, a reality that quantum mechanics talks about and Aashwasan Science brings in as an experience. The discussion that was interactive, informative and hope instilling left people with an inexplicable Silence. Connect with us on email :info@aashwasan.com or phone : +919731301017
