Aashwasan invites you to

H. O. P. E.

An Aashwasan Awareness Program for Parents of Special Needs

Children

Aashwasan invites you to a gathering with Aashwasan practitioners and parents to share their experience of hope.

Aashwasan brings tools and techniques of spiritual science to transform lives. The services are spiritual in origin and scientific in approach. Aashwasan has touched lives of over 150 lives of children. In the past four years Aashwasan treatment has brought breakthroughs in conditions such as Autism, Cerebral Palsy, Mental Retardation, Epilepsy, ADHD, Learning Disability, Anxiety Disorders, Sensory Issues and other developmental issues.

ARC initiative was started to "Transform the lives of children."

"It is only with the heart that one can see rightly; what is essential is invisible to the eye."

Antoine de Saint-Exupery

The ARC Initiative

- 4. Motor abilities:** Body balance, Coordination, fine and gross motor skills are brought about. Children show improvement in their motor function and reflexes.
- 5. Organ structures are repaired and their optimal function is restored** e.g. Repair of muscles of children with cerebral palsy can release spastic muscles, strengthening floppy muscles, developing muscle, its control and its use etc.
- 6. Digestive and food allergies:** Many children do not break down and or absorb nutrition well. Through healing, ability of the body to break down food normally and assimilate it is restored. Children with food allergies overcome them.
- 7. Cleansing of heavy metal deposits and other toxins**
- 8. Bringing out talents and skills.** Aashwasan treatment naturally inclines children to exhibit their talents and skills over a period of time.

The treatment is unique to every child and addresses the specific need of that child at that time and each child responds to the treatment in their own unique way.

A Parents Experience:

"My daughter Ruman is now 6 years old. She started getting convulsions when she was 3 years old and was diagnosed with generalized seizures, tonic clonic seizures, multiple sclerosis, cerebral cerebellum atrophy and neuro-degeneration. She took medications but these did not help, later she developed spasms and dystonia due to side affects. Her muscles had severe spasticity. Her jawline became distorted in shape. She could not bend her arms and legs. She could not speak. She had to be fed through a food pipe. Doctors gave up. God showed me the way which lead to Aashwasan and after the first session itself, we could see changes. Her eye contact improved. She cried and expressed emotions which she hadn't done for very long time. After one year, we could hear her voice. Her first word, after a long time, was "papa" and now she expresses many things now through sounds and gestures. Slowly we stopped the medications. Her seizures have reduced dramatically. Her muscles have gained strength. Her limbs are no longer stiff; they bend. Her head is getting fixed straight which earlier used to droop to one side. Her food pipe has been taken of and she eats by herself. .. It is a something miracle happened to my daughter and we see hope. I am so happy I can't express myself. I got my daughter back. She is the child of Aashwasan." - Ruman's Father

Some of the dramatic improvements children have manifested are:

- 1. Improved Immunity:** For instance Children with Autism are prone to chest congestions and gut infections. Improving their immunity addresses congestions and gut infections. Children become resilient and are not prone to them.
- 2. Neurological system and signaling repair:** Cure of Epilepsy, neuro-function issues are addressed, cognitive problems typical of learning disability are addressed, sensory integration, adequate reflexes, cognitive abilities etc.
- 3. Emotional awareness and socialization**
